

## MOTO CAMP TENT

**SET UP TIME:** seconds to erect the tent, and if needed, a few more minutes to push in the tent stakes and secure the guylines.

**TAKE DOWN TIME:** seconds (after a few practice runs!).

With a firm hold of all 4 bunched together poles, lift the tent and place one end on the ground - there should be a circle shape on the ground and another in front of you.

## MOTO CAMP TENT

You should be holding two smaller circles in your left hand.

Slide one of the circles underneath the other.

You did it! Now stuff the tent in the carry bag before it pops back open!

•HINT You may want to practice this a few times until you get the hang of it. It's like riding a bike. Once you figure it out, you'll be set for life.
