WARNING!

It is **EXTREMELY IMPORTANT** that the fuel tank is properly installed. To ensure proper installation, it is **STRONGLY RECOMMENDED** that the tank is installed only by a qualified OEM licensed dealership mechanic. Improper installation could result in serious injuries or death.

If self-installed **NOTE THE FOLLOWING**: particular attention must be paid to excessive fuel line length and fuel line proximity to hot engine areas and pipes to prevent fire.

Clean tank interior thoroughly before installation. Install this fuel tank only in a well ventilated area, as gasoline fumes are extremely dangerous. Do not start or operate the vehicle if there are any fuel leaks! Read all instructions first before beginning installation.
