SCD - MOUSSE

Enduro / Extreme Enduro Sidecar MX / Rally / Adventure

Der runde Mousse ist mit speziellen Stützrillen ausgestattet, die ein Verdrehen in der Karkasse effektiv verhindern. In den Größen 18-3/18-4 sorgt zusätzlich die leichte "Kastenform" dafür, seitlichen Fliehkräften standzuhalten. Das Ergebnis: deutlich weniger Verschleiß und eine gleichbleibend hohe Performance – auch unter härtesten Bedingungen.

The round mousse is equipped with special support grooves that effectively prevent twisting inside the carcass. In sizes 18-3/18-4, the lightweight box design additionally counteracts lateral centrifugal forces. The result: significantly less wear and consistently high performance – even under the toughest conditions.
